

Full-Tilt (Fixed) Mic Stand

Innovation and strength are cornerstones upon which Ultimate Support has built our reputation. The Full-Tilt fixed microphone stand delivers strength through previous innovations such as a fast, quiet, and reliable clutch, built-in cable management clip, and a super stable weighted base. As a further innovation we have designed this Full Tilt stand with a shaft that can be either straight or angled at 10 degrees- perfect for performers who need to make room for floor pedals or unique instrumentation.

Quarter-turn Clutch

Super quiet clutch that is reliable, and impressively easy to tighten and release!

Strong Construction

Stable stand has a durable die-cast base and strong tubing.

Weighted Base

A sleek, round, cast iron base that is very stable and sturdy

Adjustable Angle

Adjust the shaft to a standard mic setting by putting shaft in center hole (0 degrees). Adjust to an angled stand (10 degrees) by placing shaft in outer hole.

Removable Plug

Use the provided Plug to close threaded hole when not in use.

MC-FT-100 Specs

- Part Name: MC-FT-100
- Part Number: 17913
- Base Type: Full-Tilt (Fixed)
- Height Type: Standard
- Vertical Height: 35" - 62.75"
- Angled Height: 34.75" - 61.75"
- Tube Diameter: .875"
- Tube Material: Steel
- Base Diameter: 11.25"
