

SQ2040

With an almost frameless grill of 1 millimetre and a thickness of just under 5 millimetres, this loudspeaker gives short shrift to modern-day standards. The titanium driver with neodymium magnet and patented® suspension allows you to point it in any desired direction. The Intiimi series purifies the signal from the amplifier via an advanced separation filter and a correction filter. The front plate and basket are moulded from one piece which helps reduce resonance. The SQ2040 is very lovable; extremely compact but capable of world-class performance given its size.

- ① swivel tweeter in an acoustic shell
- ② manual treble control
